LIKE NOTHING ELSE

Achieve beautiful, brilliant skin with Omnilux at Le Sands Clinic boost your natural, inner confidence, and experience one of the most deeply relaxing treatments we have

"OMNILUX light therapy stimulates your body's natural processes to heal and rejuvenate the skin"

LOOK AND FEEL YOUR BEST

Omnilux LED light therapy is a truly unique experience and treatment of many skin conditions, such as Acne, and reversing the signs of ageing.

"effective for both men and women of any age and most skin types."

WHAT IS OMNILUX LED LIGHT THERAPY ?

Omnilux is a medical device that utilises light emitting diode (LED) technology. Using visible red LEDs, and invisible infrared LEDs, Omnilux works with the body's own natural processes to counteract the effect of ageing.

WHAT ARE THE SIGNS OF AGEING?

Skin undergoes normal changes with age. The most noticeable changes are dryness, wrinkles, changes in colour and texture, and an increase number of benign (non-cancerous) and pre-cancerous growths

HOW DOES IT WORK?

As we grow older, the cells that manufacture the skin's supportive structures begin to slow. Environmental damage from the sun's rays speed up this process and produce free radicals that damage the skin and cells that produce collagen and elastin.

Omnilux combination light therapy targets specific cells which are responsible for the synthesis and repair of the skin's supportive structures, leading to a softening of fine lines, and improved skin tone.

WHAT HAPPENS DURING TREATMENT?

You will be instructed to remove any make up or sunscreen before treatment. Safety eyewear will be provided to you and each treatment lasts around 20 minutes. You will experience a feeling of relaxation and well being during and after your treatment.

HOW MANY TREATMENTS ARE REQUIRED?

This depends upon your individual Le Sands Clinic treatment plan, as advised by our highly skilled and talented team of dermal therapists.

WHAT RESULTS CAN I EXPECT?

The initial effects you will notice will be clearer, brighter, and smoother complexion. As you progress through your course, you will begin to notice an improvement in tone, clarity and texture.
