## WHAT IS LASER GENESIS ?

Laser Genesis delivers gentle laser energy to improve the appearance of fine lines, wrinkles, and redness and diminish the signs of ageing for beautiful, brilliant skin. It also stimulates collagen production and treats stretch marks

## WHAT DOES LASER GENESIS FEEL LIKE?

You will experience a gentle warming of your skin's surface during the procedure. Patients often describe the treatment as relaxing and therapeutic

## WHAT AREAS CAN BE TREATED?

Laser Genesis is an ideal treatment for the face, neck, chest, and other areas of the body with noticeable signs of ageing, sun damage, redness, mild wrinkles or scarring.

## WHAT ARE POSSIBLE SIDE EFFECTS?

Because the Laser Genesis procedure is non invasive, you may notice a slight redness immediately after treatment which will resolve within a few hours.

Since there is no downtime, you can apply sunscreen and makeup and return to your normal daily activities immediately.

## HOW MANY TREATMENTS ARE REQUIRED?

A series of six to twelve Laser Genesis treatments are recommended to achieve an optimal outcome. Improvements are gradual and will be seen over a period of few treatments. Results will continue to improve for months after the last treatment. To sustain results over time, ongoing maintenance treatments are encouraged.
