LOOK AND FEEL AMAZING

Every woman wants to wake up feeling like her best self, both emotionally and physically. And your confidence should carry you through your entire day, whether you're showing off your swimsuit, hitting the gym or just enjoying a quiet evening at home.

LED T.H.E.S SLIM DRONE

The Skeyndor LED T.H.E.S Slim Drone is a revolutionary and award winning technology that can Tone and tighten your body, drain excess water, treat cellulite, and is completely relaxing.

3 TREATMENTS IN 1

The slim drone treatment consists of 3 treatments in one!

- 1) Electro-Stimulation
- 2) Thermo Stimulation
- 3) Deep tissue and skin active ingredients.

THERMO STIMULATION

Thermo stimulation is great for treating cellulite, always a stubborn area to treat. If cellulite is your concern, and a worry when hitting the beach, this treatment is for you

ELECTRO-STIMULATION

Electro-stimulation is highly relaxing, and works on your skin and muscle tissue as you relax in our exclusive facilities. It will define muscles, and tone your body without heavy workouts

RED LED AND ACTIVE INGREDIENTS

Red LED is a real unsung hero. We know, we use this for other facial skin treatments and our clients love it's almost hypnotic effects. The red LED allows the active skin care ingredients to penetrate deep into your skin tissues, and the LED then helps rejuvenate and repair your skin.

WELLNESS AND RELAXATION

PICO Genesis treatments are ideal for the face, hands and other areas of the body with noticeable signs of sun damage and excess pigmentation.

COST EFFECTIVE

Your course of 6 LED Slim Drone sessions will produce results for you and after only 3 treatments. Compared to other slimming or toning equipment, such as fat freezing, where you pay per area, Slim drone tones and firms the whole body area, meaning, a very cost effective treatment

OUR TEAM

Our team is waiting to show you how LED T.H.E.S Slim drone will provide great results for you. Call them on 02 9567 0399 for more information
